Video Five

Date viewed _____

Initials _____

Certification and Licensing

True or False?

1. All private SSTS work must be completed under the liability of an SSTS Business License
2. Qualified Employees are exempt from the SSTS Licensing Requirement
3. Training to become an Inspector QE can be completed in four days for about \$600
4. Continuing Education is NOT required of SSTS Inspector QEs

Video Six

Expectations for LGUs

1. Local SSTS Programs needs to have:
 - a. an SSTS ordinance on paper only
 - b. an SSTS inspector the homeowner can call for help getting their newly constructed system passed an inspection
 - c. an ordinance, an SSTS administrator, qualified SSTS staff, reviewing plans and inspections, record keeping, and legal authority
 - d. a computerized database for all aspects of the STSS program

2. City and township programs:
 - a. aren't needed because they are exempt from all requirements
 - b. can do whatever they want to do when it comes to SSTS administration
 - c. if they choose to have a program, they need to adopt an SSTS ordinance at least as restrictive as the county and have at least the same program elements as the county program
 - d. are too small to care about so they don't need to have an ordinance

Video Seven

Date viewed _____

Initials _____

Records Compliance, Annual Report

1. The compliance of septic systems at the local level can be effectively managed by:
 - a. Doing nothing and hoping for the best
 - b. Waiting for the system to back up in the home
 - c. Inspecting a septic system at the time of property sale
 - d. A banker

2. An Annual SSTS Report is required by whom and when?
 - a. Only by each county programs by Feb 1st each year
 - b. All local SSTS programs by Feb 1st each year
 - c. Each SSTS Inspector at the end of the construction season
 - d. None since we are a small city

Video Eight

SSTS Design, Permitting

Date viewed _____

Initials _____

1. The following are qualified to review and approve septic system designs?
 - a. County Commissioner
 - b. SSTS Inspector with proper credentials
 - c. City Council Member
 - d. Support Staff

2. A construction permit can be issued once the owner states that 'all the paperwork is in'.
 - a. True
 - b. False

Video Nine

Verify Soils, Construction Inspections
